LEADING THE WAY *in* EXCEPTIONAL HOME CARE

Being discharged from the hospital or nursing home and going home is a big and important step in your recovery – one that you and your care team have been working toward since you were admitted. You may still need nursing care and/or therapy as you continue to recuperate, but now you are able to receive it in the comfortable and familiar setting of your own home.

Tradition Home Care combines the long-established tradition of exceptional care of both New England Sinai Hospital and Jewish Family & Children's Service (JF&CS) to put you at ease from the minute you learn you'll be going home. Working with your physician to develop a plan of care, our care team members help in your transition to home where we provide you with the services you need to restore your quality of life, whether it be skilled nursing, rehabilitation therapies, medical social work and/or home health aides.

This exceptional continuum and continuity of care – from hospital to home – makes Tradition Home Care the perfect answer to your special needs. With Tradition Home Care, the staff who has helped you through your illness or injury during your hospital stay, makes certain once you are home your care is coordinated and tailored just for you.

In the hospital and at home, our tradition for caring guarantees your well-being and the ability to function at your maximum level. With over 200 combined years of commitment and experience, Sinai and JF&CS bring this tradition right to your door. Tradition Home Care is here to support you on your continued path to a safe and healthy recovery. When it comes to recuperative care at home, Tradition Home Care is leading the way.

Tradition Home Care Services:

- Skilled nursing
- Rehabilitation therapies – including physical therapy, occupational therapy and speech therapy
- Medical social work
- Social services, including elder care management
- Home health and personal aides

Tradition Home Care, through its relationship with JF&CS, provides Medicare-certified Home Health Services for acute and chronic illness, recuperations and rehabilitation.

After you no longer need home care services, our community care liaison will phone or visit to make certain you are doing well.

For more information, please call 617-224-4137, or visit us at www.jfcsboston.org.
